# **Adding A Branch**

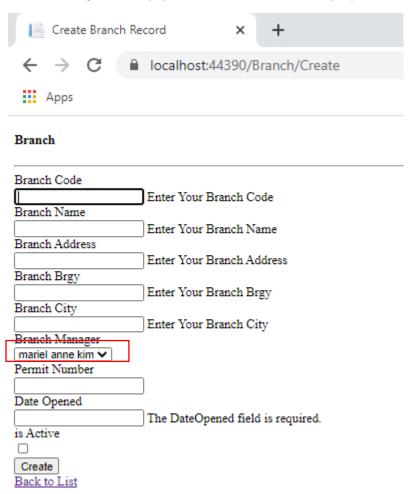

### Click Create New

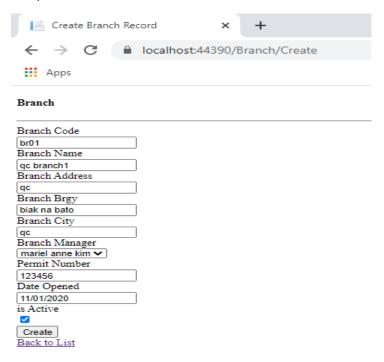

Branch Code Branch Name Branch Address Branch Brgy Branch City Branch Manager Permit No. Branch Datae Opened Branch Active?

## Sample validation

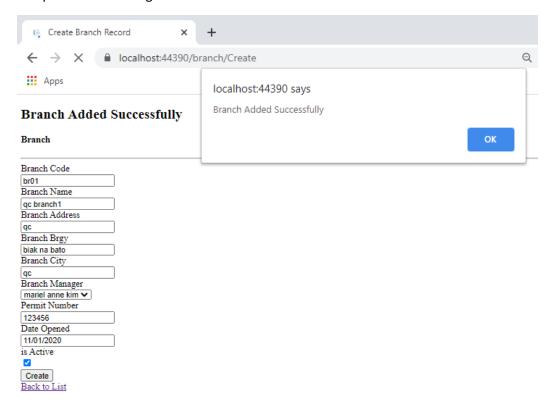

Branch Manager is also populated since there is an employee added.

### Sample data

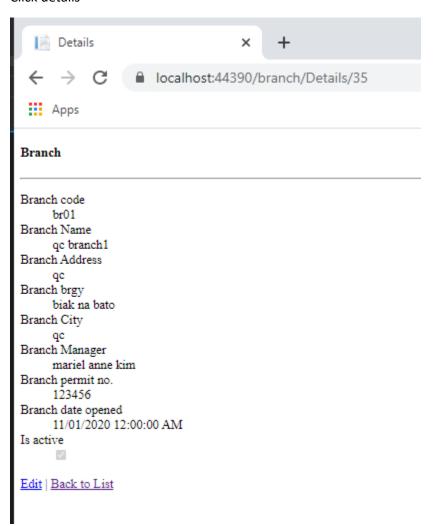

## Sample success adding of branch

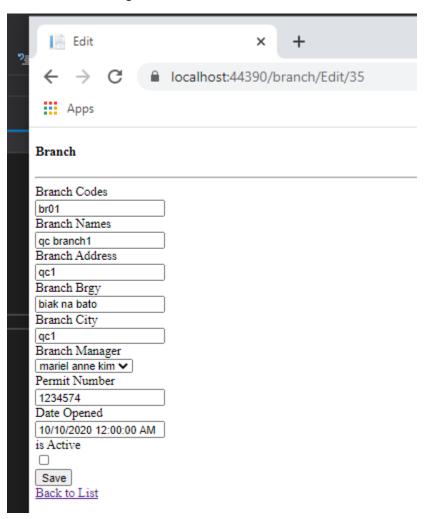

#### Click Back to List

#### Click details

# Click Edit then Change details

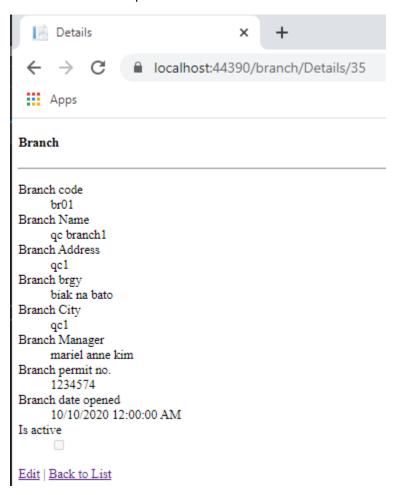

Once successful it will go back to the list

## Sample list

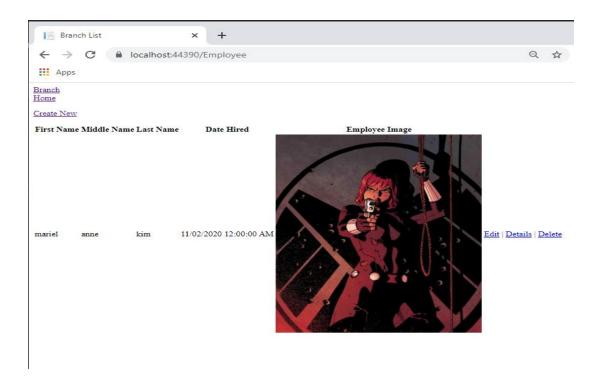

# Click details for the updated data

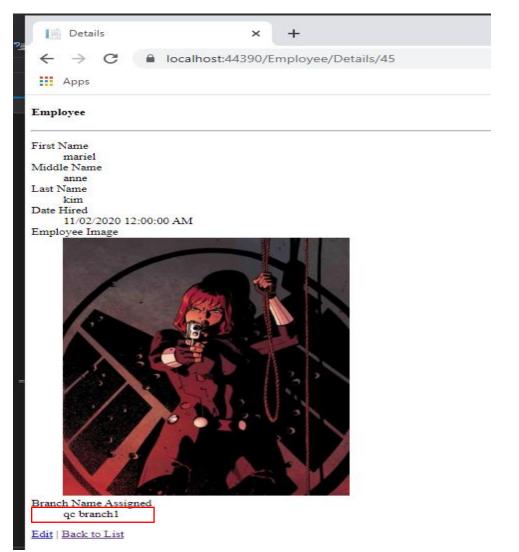

# Checking of the branch assigned to the branch manager

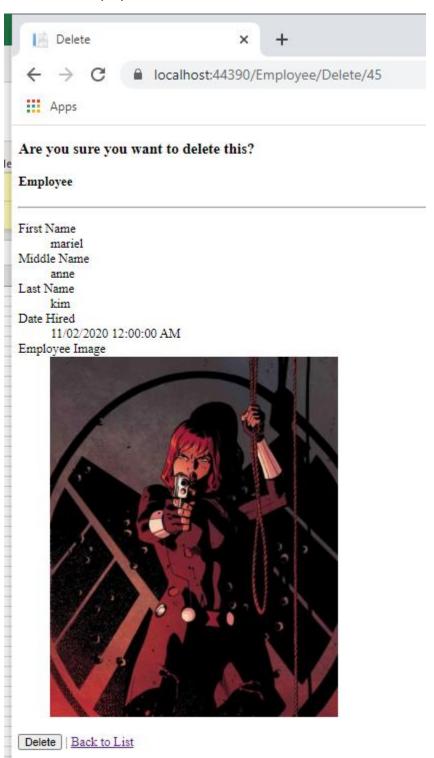

On the employee list click on the details of the employee to be checked

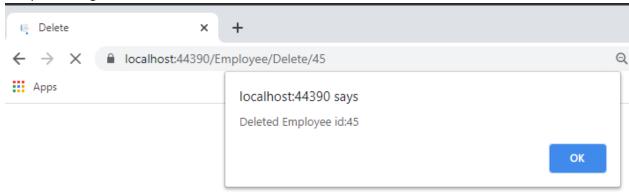

Branch Name will now have it's value since the employee was assigned there.

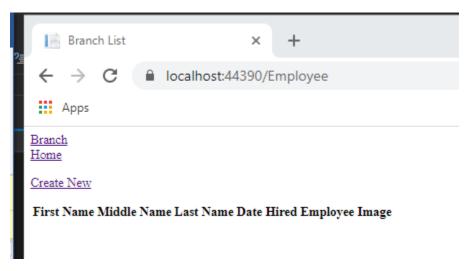

# To delete an employee Click delete

### Sample message of delete

## List of employee after delete

Since the branch manager assigned to the branch is deleted, the branch manager will also be deleted.

Click delete to remove the branch
